Relais International and The Crowley Company announce interoperability with Zeutschel OS 12000 scanner

Relais International is pleased to announce that Relais software products now interface with the Zeutschel OS 12000 Scanner. As such, Relais Enterprise, Relais ILL and Relais Express can be used in conjunction with this Zeutschel scanner. The interface was developed by Relais staff using the Zeutschel API in cooperation with The Crowley Company, the exclusive distributor of Zeutschel products in North America.

Clare MacKeigan, COO of Relais International says, "We are very pleased to offer our customers the option of using the Zeutschel OS 12000 scanner with Relais. For those customers who require the advantages of an overhead scanner this is an ideal solution". Chris Crowley, President of The Crowley Company says, "We are delighted with the opportunity to partner with a world-leading supplier of interlibrary loan software. This opens a new market for the Zeutschel line of high quality book scanners."

About Relais International

Relais International, Inc. is based in Ottawa, Canada and has been selling systems to support interlibrary loan and document delivery services since 1996. Relais International (www.relais-intl.com) assists libraries in implementing intelligent and automated methods to support the delivery of documents. Relais products range from scanning stations through to fully integrated request management, scanning and delivery software suitable for a single library through to a consortium.
