

PRODUCT PREVIEW

Finally.
A flatbed scanner that
offers more for less.

More image quality.
More portability.
Less cost.

The Crowley Company is pleased to introduce their first manufactured overhead document scanner (ODS). The **Crowley ODS** sports a simple yet effective design that brings together the renowned engineering excellence found in the company's Mekel Technology and Wicks and Wilson production microfilm scanners and pairs it with decades of experience in the library, corporate and government sectors at an affordable price.

Designed for walk-up users (students, patrons, researchers, staff), the sturdy construction and 18 MP CMOS sensor with high intensity wide angle LED's ensures quick scan time and high image quality on scans from:

- flat documents
- bound books
- spiral notebooks
- lab books
- binders
- photographs
- graphic arts
- more

From box to scan in four easy steps:

1. Connect the scan tower
2. Connect the touchscreen module or independent PC
3. Plug into a power source
4. Scan to USB, email, cloud, printer and more

ABOUT THE CROWLEY ODS SCANNER

Max. scan area	510mm x 420mm/20.4" x 16.5" (A2-A3) Fixed focal length capable of scanning single sheets or bound materials up to 100mm/4" high
Image sensor	Area array 18MP CMOS sensor
Lens	8mm wide angle lens
Capture mode	Color, grayscale, black and white
Capture time	<0.5 second
Output Resolution	100-600 dpi
Output options	USB, email, cloud, network, printer, FTP
File formats	PDF; PDF multi-page; TIFF; TIFF multi-page, JPEG
Integrated USB output	Two built-in USB ports (backward compatibility)
Scanner options	Built-in PC with 15" touchscreen interface Payment interface Optical Character Recognition (OCR)
Light source	Multiple high intensity, wide angle cool light LED lights to ensure full scan area illumination
Security	Integrated Kensington lock slot
Interface	USB 3.0
Operating system	Windows 7, Windows 8.1 and Windows 10 Professional (64-bit only)
Dimensions	With optional PC interface: 860mm (h) x 855mm (w) x 550mm (d)/34x34x21" Scanner only: 860mm (h) x 535mm (w) x 550mm (d)/34x21x21"
Weight	22 kg (48 lbs) with optional PC interface 17kg (38 lbs) scanner only
