

# OS 14000 A0 OS 14000 A0 LS

A0 high end scanner for maximum  
performance and perfect images.

We Digitize Your World

**Z**  
**ZEUTSCHEL**

*“What you haven’t given up,  
you’ve never lost.”*

*Friedrich von Schiller (1759-1805)*

**Millions of books, maps and files are lost every year because they are mislaid or totally ruined. With the disappearance of these valuable cultural assets we normally also lose the information they contain – forever.**

What that means for the future of human society cannot be expressed simply in figures. Therefore libraries and archives are not giving up on their efforts to preserve this cultural heritage for future generations. With our recently developed Omniscan 14000 high performance scanner, historic documents can now be scanned with even higher quality and speed. With a scanning speed of only 6.5 seconds for a full A0-size document and an illumination system which excludes ultraviolet light, the most sensitive materials, measuring up to 1240 mm x 870 mm (49 inch x 34 inch), can be digitized. For the protection of cultural assets the new Omniscan 14000 represents a new benchmark in the market exceeding even the highest requirements and combining efficiency with an ergonomic design.

## The OS 14000 A0

**Description:** book-/overhead scanner, universal stand unit with easy roll-in, roll-out interchangeable document table system

**Scan head:** with highest contrast quality (6.3 lp/mm), high precision scan lens, without distortion, field of depth approx. 50 mm / 2 inches

**User software:** software OS 12, 64 bit, multithreading for high productivity

**Perfect Book (optional):** 3D scan technology for perfect book curve correction

**Image enhancement software (optional):** integrated color management, contrast improvement, image rotation, despeckle, deskewing, cropping, masking, b&w scanning with dynamic threshold, etc.

**Scanner tables:** choice of easy roll-in/out scanner tables, book cradle OT 180 H A0 with self-opening glass plate, book cradles A1 with Kit 90° and book holder for ancient books, backlight table, top light table (optional with glass plate, newspaper table, vacuum table – see separate brochure OT)

## Product advantages

- Bookscanner with highest scan quality up to 600 ppi
- Scan resolution at 400 ppi – 6,3 lp/mm
- fastest scan speed
- Perfect Book – 3D scan technology for perfect book curve correction
- parallel scanning and saving process due to 64 bit technology and multi-threading
- scanning in both directions
- high productivity due to ROI-scan feature (limitation of scan area)
- color reproduction is true to the original
- no UV/IR radiation
- no reflections with high gloss originals
- ergonomic working with and without glass plate

## Compliant to

ISO 19264-1  
FADGI  
Metamorfoze

		Technical data
