DIGITIZATION SERVICES

Crowley's Digitization Services bureau has served archivists and librarians for decades by capturing and preserving important documents, genealogy research, photos, newspapers, maps, books, microfilm and more. Crowley holds a niche in guideline-compliant, high-volume conversions of all still media, including the rare and valuable.

Digitization services utilized by library entities include:

- Paper scanning (loose documents and maps/drawings)
- Bound book scanning
- Cultural heritage scanning (fragile, loose or bound materials)
- Microform scanning
- Graphic arts scanning (photos, slides, films, glass plates, etc.)
- Microform image hosting
- FADGI-compliant scanning

Click the buttons below, connect with your rep or call (240) 215-0224 to learn more about digitization solutions to support your digital library.
