

THE CROWLEY COMPANY BOASTS AWARD-WINNING DIGITIZATION SOLUTIONS FOR LIBRARY STAFF AND PATRONS

The Crowley Company (Crowley) is thrilled to announce that four of its products and services have been awarded the highest honor, Platinum distinction, in the 2025 Modern Library Awards (MLA). Judged by a panel of librarians who use these products and services daily, these accolades underscore Crowley's unwavering commitment to quality, functionality, value, and customer satisfaction. Since the inception of the MLA program in 2015, Crowley has been recognized with over 40 top awards.

PLATINUM AWARD ★ MULTIYEAR HONOREE

Platinum (2025, 2023, 2022);
Gold (2024, 2017); Silver (2018)

CROWLEY USCAN+ ADVANCED UNIVERSAL FILM SCANNER

Lauded for its versatility and user-friendly features, the UScan+ Advanced was highlighted for its exceptional features and functionality. A reviewer remarked, "The reader / scanner works very well and has many desirable features that make it easy to use and save time."

PLATINUM AWARD (5 YEARS)

Service of the Year (2022, 2017);

Platinum (2025, 2024, 2023, 2022, 2021, 2020, 2018, 2017)

CROWLEY DIGITIZATION SERVICES

Judges praised Crowley's outsourcing solutions for their capacity to enhance digitization efforts, competitive pricing, and stellar customer service. One reviewer stated, "Crowley has been a great company to work with for our outsourcing needs. Their pricing was competitive, and they were responsive to questions and corrections."

Key Features:

- FADGI-capable services
- Microfilm image hosting
- On- and off-site scanning

Key Features:

- View, scan, save and share images from microfilm, microfiche, aperture cards, film negatives and more
- 20 MP high resolution USB3 image sensor
- 40% faster batch scanning capabilities

PLATINUM AWARD

Platinum (2025)

ZEUSCHEL OS C OVERHEAD & LARGE FORMAT SCANNER

Known for its high-quality imaging and ease of use, this scanner impressed users with its ability to capture extraordinary detail, even historic materials. One librarian noted, "I absolutely love our book scanner! It's easy to use, and the quality is amazing."

Key Features:

- Capable of capturing FADGI star-rated, Metamorfoze and ISO 19624-1 images.
- RGB line sensor (3-channel, CMOS technology)
- True RGB color capture on each pixel

PLATINUM AWARD

★MULTIYEAR HONOREE

Platinum (2025, 2020, 2017); Gold (2023, 2018, 2016, 2015)

ZEUSCHEL zeta BOOK SCANNER

Celebrated for its robust performance and ability to handle bound and oversized materials, the zeta scanner received accolades for its reliability and user-friendliness. "Zeuschel units are workhorses and don't stop," shared a user.

Key Features:

- Automatic book curve correction software
- Fast-operating Core i3 processor for quick scan and process cycles
- Option for direct output to searchable text (OCR)

The Crowley Company is a unique blend of scanner manufacturer, scan system distributor and digitization services bureau. This combination allows Crowley to understand the complexities of archival preservation, records management and other imaging industry challenges from every angle, providing a competitive and technological edge that cannot be found elsewhere.
