

Simple and network compatible scanner for business

SP-1120N Image Scanner

The SP-1120N document scanner is a compact and network compatible scanner that provides high-value performance, perfect for entry-level for personal and small businesses. The SP-1120N scans 20 ppm/40 ipm (A4 portrait 200/300 dpi) and holds 50 sheets in the ADF, making it a great device for moderate batch scanning.

Assistance for safe and reliable scanning

SP-1120N comes with brake rollers to deliver accurate page separation and prevent any multi-feeding errors from occurring. This mechanism, along with our ultrasonic multi-feed sensors, provides users with stable paper feeding, prevents any potential information loss from occurring, and enables scanning of all documents and cards at the office with maximized precision and efficiency. Application forms and ID cards at the reception desk, for instance, can be scanned in just one batch, allowing for quick processing and reduced customer wait times.

Intelligent image processing with PaperStream IP

PaperStream IP (PSIP) is a TWAIN/ISIS® - compliant driver that cleans up and optimizes scanned images without any advance settings. PSIP features:

- Auto Color Detection to automatically identify the best color mode for the document
- Auto Deskew to automatically corrects skewed images
- Blank Page Detection to automatically remove blank pages
- Front and Back Merge to place two sides of a page into one convenient image

Flexible and easy operation to improve daily workflow

High-speed USB 3.2 Gen 1x1 and wired network connection expands the versatility of user operation so that users are no longer confined to operating near the computer. Operation is now possible in a wider variety of locations, with reliable network environment support. SP-1120N is also compact in size, making it the perfect scanner to use on a desk or reception space where space is limited. This entry-level model allows for a simple push-scan from the front panel, for intuitive use.

PaperStream ClickScan simplifies scanning

Easy to use capture software for any business. Simple scanning interface with 3-steps: scan, select destination & save.

PaperStream Capture makes scanning fast and easy

Eliminate the learning curve. PaperStream Capture's user-friendly interface allows easy operation from start to finish. Changing scan settings is simple. Indexing and sorting features include barcode, patch code, and blank page separation – making batch scanning a breeze for operators.

Document software for maximized flexibility

Easily find the information you need using ABBYY® FineReader® Sprint. Specializing in OCR processing, the software is compatible with over 190 languages and generates both searchable PDF and Microsoft Office documents.

Centralized fleet management

Includes Scanner Central Admin to remotely manage your entire fi Series and SP Series fleet. Effectively allocate your resources based on scan volume, consumables wear, and more.

^{*1} Actual scanning speeds are affected by data transmission and software processing times. ^{*2} Indicated speeds are from using JPEG compression. ^{*3} Indicated speeds are from using TIFF CCITT Group 4 compression. ^{*4} Selectable maximum density may vary depending on the length of the scanned document. ^{*5} Limitations may apply to the size of documents that can be scanned, depending on system environment, when scanning at high resolution (over 600 dpi). ^{*6} Capable of scanning documents with dimensions exceeding that of Legal sizes. Resolutions are limited to 300 dpi or less when scanning documents >355.6 mm (14 in.) to > 863 mm (34 in.), 200 dpi or less when scanning documents ≤ 863mm (34 in.) in length. ^{*7} Thicknesses of up to 127 to 209 g/m² (34 to 56 lb) can be scanned for A8 (52 x 74 mm / 2.1 x 2.9 in.) sizes. ^{*8} ISO7810 ID-1 type compliant. Capable of scanning embossed cards with total thicknesses of 1.24 mm (0.049 in.) or less. ^{*9} Maximum capacity depends on paper weight and may vary. ^{*10} Capable of setting additional documents while scanning. ^{*11} Numbers are calculated using scanning speeds and typical hours of scanner use, and are not meant to guarantee daily volume or unit durability. ^{*12} Scanning speeds slow down when using USB 1.1. ^{*13} When using USB, device must be connected to the USB hub connected to the PC port. If using USB 3.2 Gen 1x1 (USB 3.0) / USB 2.0, USB port and hub compatibility is required. ^{*14} Excludes the ADF paper chute and stacker. ^{*15} Functions equivalent to those offered by PaperStream IP may not be available with the WIA Driver. ^{*16} Refer to the SP Series Support Site for software downloads. ^{*17} SP Series scanners do not run with Windows® 11 and 10 ARM-based PCs. ^{*18} In-box software only includes driver support for MacOS and Ubuntu.
